1. The actual storage available to the user will vary as some space will be used for system data. A standard configuration may have up to 1.16GB of available space, depending on the model and settings.

2. Optional WirelessProjection-Kit is required.

Ultra Short Throw

Ultra short throw projectors are used in applications where the distance to the projection screen must be minimized. Acer U5 series projectors relieve users from the discomfort of bright lamp light, and minimize the space of projection distance.

DLP® 3D Ready

With DLP 3D ready, user can view any 120 Hz 3D frame sequential content from a PC with appropriate 120 Hz graphic card and 3D stereoscopic player or any Blu-ray Disc title from a Blu-ray Disc (BD) player and HQFS 3D DVD title from an NTSC DVD player by wearing DLP 3D glasses.

Crestron® network control

Crestron® is one of the world's biggest network-control system providers. This Acer projector is completely compliant with Crestron® Network System technology. Once this projector is connected to a LAN, it offers many network-control capabilities. This projector supports Crestron® Flash and Crestron RoomView®.

Acer EcoProjection

Acer EcoProjection is a complete environment-friendly power management solution that reduces standby power consumption by up to 64%. Also featured in the Acer EcoProjection suite is Acer ePower Management for customized power-saving configurations.
